Incomplete Sanity

Shattersphere

Barely alive I try to move
One more time and I'll run you through
For all the grief you've given me
I'll rise again for my will to beNot even wanting to exist
Just to show you that I'll persist
This is not my fianl hour
It's the time of my greatest powerDie to spare your life
We're here to test our might
I beg my own mercy
We will battle incomplete sanityI will turn yourself on you
My eyes control your every move
A war with me is a war with you
Scar the land we battle throughBlink an eye and lose it quick
Down to Hell is your final trip
Beaten down but what's the sense
Now broken through your last defenseNow begins our time
Let's resume our fight
