Strong

Greenwheel

Here I am, all alone
Situations overwhelming again
Be strong, I tell myself
But fall right back againBut hold on
I think I just realized somethingHere I am right in your hands
There I am letting you take what you can
I wont let this happen again
Im too strong to fall againA light of hope
Is fading more each time I breathe
Decide, right or wrong
Too many roads, a wounded soul in needBut hold on
I think I just realized somethingHere I am right in your hands
There I am letting you take what you can
I wont let this happen again
No, Im too strong to fall againI won't fall just yetHold on
I think I just realized somethingHere I am right in your hands
There I am letting you take what you can
I wont let this happen again
No, Im too strong, I won't fall againHere I am, hey, here I am
No, I wont let this happen again
Here I am, I won't fall
I'm too strong
