Love's Train

Kym Mazelle

Baby, baby, come on
Come on baby, come on baby
Hit me off, hit me off, hit me off
Now baby, now baby, all night, all night
Warm night, can't sleep, too hurt, too weak
Gotta call you up
(Gotta call you up)
Dial that number, no one answers 'til 2 o' clock
(2 o' clock)
And if by chance you'll let me come over
Out on the street, I can see you baby
If by chance you'll let me just hold you
Down on my knees, I wanna to please you baby
(I'll be your righteous lover)
She said, "Sugar, honey, darling
I really wanna see you too
(I really wanna see you too)
It's just that someone's over
And I baby wanna be with you"
And if by chance you'll let me just hold you
My lovin' is free
I wanna see you baby
And when in need, you said you would be
I love you
(I love you honey)

If you are that special lover
Love keeps you tied to another
That's the way it goes on love's train
Sometimes heart strings can be broken
You've just got to keep on goin'
That's the way it goes on love's train
If these sorrows, you've been sulkin'
You've just got to keep on strugglin'
That's the way it goes on love's train
If you are that special lover
Love keeps you tied to another
That's the way it goes on love's train
Sometimes heart strings can be broken

You've just got to keep on going
That's the way it goes on love's train
If these sorrows, you've been sulkin'
You've just got to keep on strugglin'
That's the way it goes on love's train
Ride it, ride it, ride it
Ride it, ride it, ride it
