Slow Down

Pennywise

Responsibility is a foreign word to me
it's time to buckle down
time to stand your ground
set any way of life for which you abide by
while not always the ways you would take
set them before you make a mistake
open your eyes and seeI've got too much fun ahead of me
I've got too much fun ahead of mereality doesn't, it doesn't refer to me
the real worlds no big deal
what's real is what you feel
so tell me now buddy: what are you gonna do?
Will you take advice from me?
Will you be who you wanna be?
You could be going down along ways before meI've got too much fun ahead of me
I've got too much fun ahead of mereality doesn't, it doesn't refer to me
the real worlds no big deal, what's real is what you feel
so tell me now buddy: what are you gonna do?
Will you take advice from me?
Will you be who you wanna be?
You could be going down along ways before meI've got too much fun ahead of me
I've got too much fun ahead of me
