Ascending into Madness

Hard Working Americans

I've come down here one last time
A few times
A few times after that
but that was just for old time's sake
and I know that I've come here a few times
for no good reason at all but this time I swear
I'm just down here by mistake
I'll quit drinking for the reason that I started drinking
when it makes me feel better than I already do
From rags to riches to rags
to richly embellished accounts of the truth
ascending into madness
Rest in chaos my old friendI sang you my song and then another one
not knowing if I gave you a choice you would make it
It will hit you just like dying they say
but it's even worse if you're able to take it
you're ascending into madness
Rest in chaos my old friendThe dead had been around this block a few times more than you had
a few times more than we all had
well back before it was even paved
and they say that upon the sea of hypnocracy
that the shore is just another wave
ascending into madness
Rest in chaos
