I Know Tonight

Night Ranger

I know what you want
And I know I want you too
And I know tonite I can make you go crazy
One two three
You with a lonely heart
The lovely eyes
I've seen that very look before
In my younger roving days
I had a lonely heart
A lucky smile
The world was going just my way
And I had to cross the line
And I had to cross the line
CHORUS
I know what you want
I know I want you too
And I know tonite I can make you go crazy
It's a hard earned life
Accounts received
Can never compete with what paid away
I dream of my younger days
You with your wicked smile
The tangled hair

The skin all tan from the sun and the sand
I had to cross the line
And I had to cross the line
Chorus
The way you lookin' your eyes
I can tell you got lines for me
No, not even tonight
You're gonna take me down lie for me
Don't you cry for me oh
The way you lookin' your eyes
I can tell you got lies for me
No, not even tonight
You're gonna take me down lie for me
Yeah yeah
I know what you want

I know what you want
I know I want you too
I know I want you
I know tonite I can make you go crazy
(repeat variations to fade)
