Belgium

Gesaffelstein

Lately I feel so small
Or maybe its just that my bed has grown
Never noticed it before
But you were there so how was I to know
That this single bed
Was always meant for two
Not just anyone, no
It was meant for me and you
And now your halfway round the world
And I'm just a day behind
Nothin' seems to fill the hole
That I have since you left my side
You'll always be my little girl
Though I can't hold you tonight
And now your halfway round the world
And I'm just a day behind
Wake up in the night
And I turn around and find you're not there
I just like to watch you sleep girl
I lay by you, I love to feel you near
I think I'm goin' crazier everyday
Everyday confusion starts to grow
I never noticed it before
But you were there so how was I to know
That this single bed
Was always meant for two
Not just anyone
It was meant for me and you
And now your halfway round the world
And I'm just a day behind
Nothin' seems to fill the hole
That I have since you left my side
You'll always be my little girl
Though I can't hold you tonight
And now your halfway round the world
And I'm just a day behind
Girl, you know I've been missing you
I was thinking about you the other day
Remember how you liked all the chicken nuggets

I got a couple of forties in the fridge
May be you can call me up sometime, we'll kick it
I'll give full rub, just like you like
You know what that always leads to?
I just miss you girl
Come on baby page me sometime
I miss you
And now your halfway round the world
And I'm just a day behind
Nothin' seems to fill the hole
That I have since you left my side
You'll always be my little girl
Though I can't hold you tonight
And now your halfway round the world
And I'm just a day behind, ooo yeah
Lately I feel so small
Or maybe it?s just that my bed has grown
I've never noticed it before
And now you?re halfway round the world
And I?m just a day behind
Nothin' seems to fill the hole
That I have since you left my side
Though I can?t hold you tonight baby
Sorry, I've got to be players, I gotta go now
'Cause now your halfway round the world
And I?m just a day behind
Just a day behind
Just a day behind
No its just a day behind
Just a day behind
Just a day behind
Just a day behind
No, no just a day behind
Baby I'm so sorry
I see you when we catch up girl
