

Might as Well Get Stoned

[Chris Stapleton](#)

Well, she said, she didn't love me
And kicked me out the door
Now I'm livin' in one room
And sleepin' on the floor
I think I'm gonna kick my boots off
And put some music on
And since I'm all alone
I might as well get stoned I might as well get stoned
Get it off my mind
Ain't got a thing to do
All I've got is time
The bottle's all I've had to be a friend of mine
And since my whiskey's gone
I might as well get stoned Now every time I watch the TV
Another soldier dies
Another brother's gone
Another mother cries
Now I know they've got a job to do
But if I had one wish
I wish they'd all come home
So, we could all get stoned I might as well get stoned
Get it off my mind
Ain't got a thing to do
All I've got is time
The bottle's all I've had to be a friend of mine
And since my whiskey's gone
I might as well get stoned
Might as well get stoned
Might as well get stoned
Might as well get stoned
