And we won't stop 'cuz we can't stop
No we won't stop 'cuz we can't stopI heard you got plenty of money, plenty of clothes
An escalade a porch and a house on the hill
A platinum watch, platinum rings, platinum cars
A condo in Beverly HillsAnd they say that you're a millionaire
But baby I don't really care
'Cuz I just need for you to see
That all I want is youI heard you got Gucci belts to match ya boots
Versache wear, Chanel and Fendi suits
Purple light Benz, purple light Lexus coop
And you make sure ya friends are 'bout it tooThey say that you're a millionaire
But baby I don't really care
'Cuz I just want for you to see
That all I want is you babyAll I really want is you
Believe me 'cuz what I say is true
Not interested is what you do
'Cuz all I really want is youI heard you got sexy eyes, sexy lips, sexy feet
You got sex appeal the way you wear your hair
The way you dress and girl the way you make me feelin'
Makes me want you more and moreYou're everything I'm lookin' for
And I just need for you to see
That all I want is youI love your personality
I think that you're all that a woman should be
Like a picture out of a magazine or a vision of my wildest dreams
Make me want you more and moreYou're everything I'm lookin' for
And I just need for you to see
That all I really want is youAll I really want is you
Believe me 'cuz what I say is true
Not interested in what you do
'Cuz all I really want is youAll I really want is you
Believe me 'cuz what I say is true
Not interested in what you do
'Cuz all I really want is youAll I really want is you
Believe me 'cuz what I say is true
Not interested in what you do
'Cuz all I really want is youAll I really want is you
Believe me 'cuz what I say is true
Not interested in what you do

'Cuz all I really want is youAll I really want is you
Believe me 'cuz what I say is true
Not interested in what you do
'Cuz all I really want is you
