Holy Mountain

Giraffage

I fell in love
With your face
Take down the walls
Of this place
You're a wild thing
You say wild things
But much too wild I think
You're a wild thing
You say wild things
But much too wild I think
And you sense the heat in my heart
And she broke me down like a dog
And I cried and cried
Till I couldn't speak no more

You're a wild thing
May say wild things
But much too wild I think
Child
Hush your mouth
Innocence
Please don't speak
You're a wild thing
You say wild things
But much too wild I think
You're a wild thing
And everything you say wild things
But much too wild I think
