It's Like That

Evan Taubenfeld

I'm the kid on the rise
I'm the heat in summer time
Everyone around me knows I'm on my way
You may not see it now
Lookin' at my bank account
Girl, you know I'm gonna fool the world someday'Cause when I get to where I'm going
I just don't think that you'll be knowing
About the party that I'm gonna haveIt's like that
(It's like that)
It's like that
(It's it's like that)
We'll have the biggest mansion on the block
And that's a factIt's like that
(It's like that)
It's like that
(It's like that)
And everyone's invited
California to IraqCome on
WhooI'll be Midas as you'll be gold
You won't have to sell your soul
Always keep a pair of aces up my sleeve
Yeah, I got game like Beckham man
Frank in catch me if you can
Won't you take my hand and come away with me?
(Away with me)We will hit our destination
Life will turn into vacation
Everybody all together nowIt's like that
(It's like that)
It's like that
(It's like that)
We'll have the biggest mansion on the block
And that's a factIt's like that
(It's like that)
It's like that
(It's like that)
And everyone's invited
California to IraqEverything I say is true
I would never lie to you
Trust me, love me, don't be crazy

'Cause I'd never hurt you, babyAll the cash in the world
Won't make me rich without you, girl
Don't you know
That we can rule the world somedayIt's like that
(It's like that)
It's like that
(It's like that)
We'll have the biggest mansion on the block
And that's a factIt's like that
(It's like that)
It's like that (It's like that)
And everyone's invited
California to IraqIt's like that
(It's like that)
It's like that
(It's like that)
We're going to the hills
And maybe never coming backIt's like that
(It's like that)
It's like that
(It's like that)
And everyone's invited
California to IraqEverybodyBig Evil
That's right
And the Blacklist Club
Yeah, it's like that
