Be gone

Council of Rats

It's getting hard to stay up
I think I can hear God calling my name
He'll try to make my heart break
But I was told you'd call me tonight
They're calling my name
They won't slow the car down
I'm scared that I will keep it for my own
The one that is calling my name is telling come down
They're calling my name
They're calling my name
They're calling my name, calling my name
