Pop Rocks

amherst.

Hey there girl yeah you know who you are,
You walked into my life and then you stole my heart

I think it's those eyes that keep killing us guys
And for your sinister smile the b-b-boys go wild

baby it's those thing you do ,that make me think im falling for you,
yeah!Hey there girl you got me going again,dont bother with the other boys im better than them

Just tell me what i need to do,Baby i'd do anything for you

I'll hold you close and i'll never ever let you go,I'll text you all day long and even write you a song,
when you have a bad day i'll leave a note on your car just to tell you that you look like a movie star

You're my Audrey Hepburn and i'm your t.m.z,So tell me will i get you girl by the end of the scene

But all i know is that girl you me going again,And i think you like me too (Lets not pretend!)

baby it's those thing you do, that make me think im falling for you

Hey there girl you got me going again,dont bother with the other boys im better than them

Just tell me what i need to do,Baby i'd do anything for you

Hey there girl you got me going again,dont bother with the other boys im better than them

Just tell me what i need to do,Baby i'd do anything for you

i'll call you late at night,to help you go to sleep then call you in the morning so we can talk about our dreams

i'll call you late at night,to help you go to sleep then call you in the morning so we can talk about our dreams

Hey there girl you got me going again,dont bother with the other boys im better than them
Just tell me what i need to do,Baby i'd do anything for you

Hey there girl you got me going again,dont bother with the other boys im better than them
Just tell me what i need to do,Baby i'd do anything for you

Hey there girl you got me going again,dont bother with the other boys im better than them
Just tell me what i need to do,Baby i'd do anything baby i'll do anything Baby i'd do anything for you
