Yeah Yeah

Sam Means

Today was the day
That I put everything in perspective
I fell asleep, when I woke up
Everything changed
And the sky was turned on
But that was before
But that was before

You came along and you turned me on
With a little bit of love
And little bit of yeah yeah

Today is the day
That I threw out everything that I wanted
I was scared, but that's alright
Who needs a ride that's taking too long?
That was before
That was before

You came along and you played me a song
With a little bit of love
And little bit of yeah yeah

Lalalalalalalalala

You came along and you played me a song
With a little bit of love
And little bit of yeah yeah
Yeah Yeah (5x)
