Amazing

Stellar Road

oh yeah that?s me
looking over your shoulder staring
oh give me what i need to believe, us
i want to hear those words
rolling off your tongue
look at what i?ve become
a peasant, a beggar, this one-man omega
you break the best of me

*but then you open up your eyes
flip your hair no compromise
again i sit and watch you walk away
your clarity is breaking down
every moment round and round
then i dreamed you asked me
why do the leaves fall down? and
why wear this thorny crown? and i say
gravity? no it don?t mean anything
but you don?t know what you mean to me
you don?t know what you mean to me
can i stay for a minute could you just let me say?
you?re amazing

i want to flip you around
kiss you with my tongue
drag it on down girl the damage is done
i wanna ask you this i wanna put it in a song
cause everytime i talk the words come out wrong
but musically, the only way i know to be
the only thing that makes me yours eternally
and i just wanna be together forever
