Come on Let's Go

Broadcast

You won't find it by yourself
You're gonna need some help
And you won't fail with me around
Come on let's goI will tell you if you change
And who's been saying things
It's hard to tell who is real in here
Come on let's goYou know who to turn to
Now everything's changed
Come on, lets go
Stop looking for answers
In everyone's face
Come on let's goWhat's the point in wasting time
On people that you'll never know
Come on let's goWhen you're looking for a friend
But it's empty at the end
When everybody's disappeared
You won't be aloneIf you want I'll compensate
If you overestimate
So there's nothing left to fear
You won't be alone
You know who to turn to
Now everything's changed
Come on let's go
Stop looking for answers
In everyone's face
Come on let's goWhat's the point in wasting time
On people that you'll never know
Come on let's go
