So Alone

Bang Gang

The nights has strange moonlight
It's so confusing
Alone I watch the sky
Tired and breathingBut if you want me
I won't be so alone
You can always
Fool the sunAnd if you want me
I won't be so alone
You can always
Bring the funThe sea is my best friend
We're always crying
When crawling in the sand
Tired of breathingBut if...The night has strange moonlight
The sea is my best friend
When crawling in the sand
Tired of breathingBut if...
But if...
