

# Young Hearts

## The Chainsmokers

Friday night, she's dynamite  
She's all dressed up to go  
And putting on her make-up  
In the backseat of a taxi  
He said he would wait  
But she's getting there late  
She was the last to know  
Finding her boy in the arms of her best friend  
Said it was forever  
Now she cries in the rain  
Will no one ever love her again?  
Young girl, don't cry  
Save your tears for next time  
Young hearts don't die  
Don't you know why?  
Young girl, don't lie  
Save your love for someone  
Who won't make you cry  
Young hearts like yours don't die  
A boy's in love but his angel's from above  
Had things she never told him  
She can't stop messing, trespassing  
Every border tonight  
Tears were cried and lies were lied  
But life goes on for sure  
Another young heart's broken  
Like many other ones before  
Alone in the cold night  
She cries in the rain  
Will no one ever love her again?  
Young girl, don't cry  
Save your tears for next time  
Young hearts don't die  
Don't you know why  
Young girl, don't lie  
Save your love for someone  
Who won't make you cry  
Young hearts like yours don't die  
But this life's got surprises

And you might not be without  
Love can hit you like a fire  
In a smile when he turns around  
Young girl, don't cry  
Save your tears for next time  
Young hearts don't die  
Don't you know why  
Young girl, don't lie  
Save your love for someone  
Who won't make you cry  
Young hearts like yours don't die  
Young girl, don't lie  
Young hearts don't die  
Don't you know why  
Young girl, don't lie  
Save your love for someone  
Who won't make you cry  
Young hearts like yours don't die
