Darkness In My World

Steve Lukather

Don't forgive me when I'm gone
Please forgive me if I was wrong
Find the strenght to carry on
Don't forgive me when I'm goneWoke up this morning
With an emptiness inside my heart
That never diesNo one seems to care at all
10, 000 miles away, tears in my eyesAs I fall on the broken glass
Of my hopes and my dreams
And the truth starts to unfurl
There's a darkness in my world
There's a darkness in my world52 it sure came fast
Decades seems to pass,
I'm looking deep inside myself
Wonder what my life is worth
I question every move I make
My mortal sins, and life itselfAs I question the how's and why's
Could we be near the end
I'm praying for differeal
There's the darkness in my worldThere's a darkness in my worldDon't forgive me when I'm goneI won't my life is worth
There's a darkness in my world
There's a darkness in my world
