Chikasaw (Ten Inch Mix) Youth

Pigface

i feel like burning this town
this fear is bringing me down
i feel like breaking this town
this fear is burning me now
[you wanna come get some?]
how can you live with this shit going on?
i feel like burning this town
my fear is walking around
how can you lay low? (?)
how can you lay low? (?)
to be there is all i can do
just one care is all i can find
i open my heart just to say
the mountain of rock *?* too
how can you lay low? (?)
how can you lay low? (?)
when i say i love you i know that i lie
but i feel so good to scream it out loud
at least i try
this fear this fear is burning me now [x4]
my fear is walking around
how can you lay low? (?)
how can you lay low? (?)
