Stand On the Outside

Small Mercies

Waiting for someone
To tell you where love's gone
It comes then it fades from your view
Walk in slow motion
Long lost devotion
Slowly creeping up on youDon't stand on the outside
Coz I will let you in
This is the moment
So perfect to begin
Lay down beside me
Leave the world behind
Don't stand in the corner
I welcome you insideOh yeahThis plan in making
Love is mistaken
You're losing direction in life
I'll watch from the inside
Wait for the right time
I'll come for you I'll be your guideDon't stand on the outside
'cause I will let you in
This is the moment
So perfect to begin
Lay down beside me
Leave the world behind
Don't stand in the corner
I welcome you insideThere is something more I want to say
I need for you to stay
Oh I've been waiting
God know I've been patient
But time is wasted nowFeeling emotion
Out on your own and
You're raising your arms to the skyDon't stand on the outside
'cause I will let you in
This is the moment
So perfect to begin
Lay down beside me
Leave the world behind
Don't stand in the corner
I welcome you insideLay down beside me
Leave the world behind

Don't stand in the corner
I welcome you inside
I welcome you inside
I welcome you inside
