Hold Us Down

Justifide

To the darkness comes a light
That wont stop for anything or anyone
It shines the truth, the light of the Son
So be ready for it has just begunWe will show this light to everyone
And wont stop until our job is done
One day all will kneel to the Son
And all will see the invisible kingThey cant hold us down
The wont put us out
They cant hold us down
Hold us downWe wont be shut down
Please dont tell us
Dont tell us that we dont belong
We will fight until the end of days
For what we believe in the right way
People doubt Him, well let them say
Whatever they wanna say
