Moonlit Hearts

Trapdoor Social

Silhouette and calm air / behind the sun's stare
I want to take you there / I want to take you there
Floating on a glass of wine / I see our stars align
Over frozen time / plotted over frozen timeHolier than I've been / flowing across your skin
There's no such thing as sin / there's no such thing as sin
Soaking up your shadow / got nowhere to go
You'll never be alone / you'll never have to be aloneFireflies blinking by
when the stars are brushed with night
They come alive
I wanna take them home with me
I wanna touch the sunRhythm coming undone / right when we've just begun
You are the only one / you are the only one
Reflection in a dark pond / past where the sun's gone
I think I see beyond / we used to see beyondDrink the air til I'm ensnared and can't be spared from your happy ending
You dream it up for me / you dream it up for me
Playing cards with moonlit hearts and shooting stars from every corner
Forever heavenly / the morning bells will never ring(Chorus pt. 1)
Campfires set ablaze
I'm looking through the haze
At your face
I'll be there when the smoke is gone
I'll be the one that staysI'm wandering through this forest I won't call out any other name
I'll chase you down from dream to dream and pray that it'll be the same
When the sun comes up and you are gone I'll curse the living day
I'll curse the living day
