# Contemporary Dancing

## Nils Bech

If there's something that's been missing in my life, it must be dancing
Give me movements that are fluid, to the earth, and that are weightedIf the boy wants to move let him in to your school
If the boy wants to dance let him in to your classHuman movement and expression is the key to understanding
Open up your heart and let in leaps and kicks and isolationsIf someone wants to move give them space and some room
If someone wants to dance give them space and the chanceContemporary dancing, dance, dance, dance, contemporary dancingSet your body free from pressure, bad relations, and destruction
Everybody knows a dancer is the key to satisfactionIf the boy wants to move let him in to your school
If the boy wants to dance let him in to your classContemporary dancing, dance, dance, dance, contemporary dancing
