Get In Get Out

Layzie Bone

I hear you been coming around
I feel you just by the sound
I want you just like a pill
I feed you, need to just for the thrillCome undo me
Like the way you used to do
Come abuse me like I want you toGet in, get out for a little while
Get in, get out, yeah
Get in, get out for a little while
You let me in without a doubt
Now open the door, get in, get outI see you shaking, hold my hand
I'll make you, take you any way I can
Only for a moment, don't let it pass
It's time to get up off your assDon't you worry
I won't tell no one you're here
Stay a little while
Then you can disappearGet in, get out for a little while
Get in, get out, yeah
Get in, get out for a little while
You let me in without a doubt
Now open the door, get in, get outYou know what I'm talking about
Yeah, yeahGet in, get out
Get in, get outGet in, get out for a little while
Get in, get out, yeah
Get in, get out for a little while
You let me in without a doubt
Now open the door, get in, get out
Get in, get out
