United

Shaun Canon

Vs 1
When will the future begin
When does it end?
When will the dark side relent
Is losing our fate againWhen will the day end the night
This isn't right
When will we get back our sightChorus
They will try and fight us
They will try and bring us down
I wake with a sword in my hand
I won't let them take me again
If they can divide us
They will burn us all to the ground
There's a will they don't understand
We're here and we're taking a standVs 2
Why was the world blown apart
We've travelled so far
Why do we whisper in the dark
Do we fear who we areWhy does the Earth have to burn
We never learn
When will the good get a turn
When will the sun returnChorus
They will try and fight us
They will try and bring us down
I wake with a sword in my hand
I won't let them take me again
If they can divide us
They will burn us all to the ground
There's a will they don't understand
We're here and we're taking a standBridge
Fires in the sky
Too many people die
Everyone's just trying to survive
Keep on fighting
The world is on the line
There's nowhere left to hide
How are we gonna stay aliveChorus
They will try and fight us
They will try and bring us down

If we can riot
We can turn this aroundI wake with a sword in my hand
I won't let them take me again
United - we can turn this around
There's a will they don't understand
We're here and we're taking a standUnited - we can bring them down
United - we can turn this around
