Scission

Nothingface

If I could find a way to erase the day
I would starve the endless night and burn out the lights
You don't need to understand
You'll never need to know anything
If you hear just what they say you'll fear it's all the sameLost in the catacombs
Somehow I'm feeling at home
Not far to go
Not far at allI love to see you cry I always crack a smile
I'm crowned face down with the vultures all aroundLost in the catacombs
Somehow I'm feeling at home
Not far to go
Not far at allNever felt any distance
Never saw any signs
I never felt I was slipping
And now I'm out of time
I need to stop right now
I cannot fake this anymore
I need control right now
And get my face off the floorLost in the catacombs
Somehow I'm feeling at home
Not far to go
Not far at all
