Time

Auryn

You know they say we come here alone
we leave alone and thatâ€™s what scares me the most

Just like the sun thatâ€™s shining down
it fades away and yesterday is gone.

But itâ€™s only time oh yeah
sneaking up on me when my back is turned
Oh itâ€™s only time.., oh yeah
bringing up all the things that I never learned

You know they say we live and die with trust
that all of us have some great purpose here
but itâ€™s never been my tongue is tied again
I ask away.., is my defining moment near?

If itâ€™s only time...
