Tiny Spark

American Hi-Fi

I will begin again
Don't know how and don't know when
Something's gotta giveSo far I fall from grace
Taking all the breathing space
Won't you let me in?There's beauty in the sound
Butterflies go underground
On a busy seaStill floating in the dark
Waiting for a tiny spark
Lucky to be freeI wanna hear you say it's all
I wanna hear you say
I wanna hear you say it's all
I wanna hear you sayI wanna hear you say it's all
I wanna hear you say
I wanna hear you say it's all
I wanna hear you say, baby, it's alright
