

Lights On

Shawn Mendes

Damn you look so good with your clothes on
And I'm not trying to come off too strong
But you know that I can't help it
Cause girl you are beautiful I can't deny I want your body
But I'm a gentleman so I'll be
The one who takes it slowly
Cause girl you're so beautiful (Chorus)
I wanna love you with the lights on
Keep you up all night long
Darling I wanna see every inch of you
I get lost in the way you move
I wanna love you with the lights on
Hold you till the nights gone
Darling I wanna see every inch of you I get lost in the way you move
I wanna love you with the lights on I like the vibe in this hotel room
I'd really like to get to know you
It's like discovering a secret
Underneath these heavy sheets Your skins so perfect up against me
Your lips are talking when you don't speak
And I never wanna let this go
Cause there's so much left to see (Chorus)
I wanna love you with the lights on
Keep you up all night long
Darling I wanna see every inch of you
I get lost in the way you move
I wanna love you with the lights on, lights on
Darling I wanna see every inch of you
I get lost in the way you move I wanna love you with the lights on baby I wanna love you with the lights on
Keep you up all night long
Darling I wanna see every inch of you
I get lost in the way you move
I wanna love you with the lights on
Hold you till the nights gone
Darling I wanna see every inch of you
I get lost in the way you move I wanna love you with the lights on, baby yeah yeah Darling I wanna see every
inch of you
I get lost in the way you move I wanna love you baby
Darling I wanna see every inch of you
I get lost in the way you move yeah yeah yeah
