Came to Say Hello

The Stereotypes

You lean against the fireplace
Saw the look run across your face
Tells me no
Just tried to say hello

You came to see your friends band play
You knew him from the older days
Don't tell me no
Just came to say hello

Everything you want in me
Everything i saw in you
The way we used to laugh in school
The way we used to walk into the room

I caught up with you at the bar
Never thought i'd get that far
Take it slow
Just came to say hello

It's funny things you never knew
Come back to you out of the blue
Take it slow
I came to say hello
