Superhero

Smudge

(It's so incredible)
You lookin' brokenhearted
I think i need to fix it
You used to the normal but um
I'm gon have to preceed it
All those girls that left ya hurt it
Weak with your arms wide open
Thinkin' you need to be saved
Let me rescue you baby
You lookin' for an answer
Searchin' for somethin' better
You don't have to look further
I'll put you back together
Got that S on my chest
Now you don't have to stress
I'll fly ya away
Be your Lois Lane
I can be your superhero
Can be your superhero
I can save the day
I can save the day
I can be your superhero
Can be your superhero
I can save the day
I can save the day
Now I know you're not used to
A girl that do what I'll do
But baby let me teach you
All the things my powers do
I can break any wall
No obstacle too small

I'll break away all the chains
Holding you back from me
You lookin' for an answer
Searchin' for somethin' better
You don't have to look further
I'll put you back together
Got that S on my chest

Now you don't have to stress
I'll fly ya away
Be your Lois Lane
I can be your superhero
Can be your superhero
I can save the day
I can save the day
I can be your superhero
Can be your superhero
I can save the day
I can save the day
I can leap hills and bounds
I can move a mountain
I can carry us over
Put your hurt on my shoulder
I'm no woman I'm steel
My love gives strength to heal
Let me rescue you baby
Let me save the day
Chorus
I'll be your superhero
I'll be your superhero
I'll be your superhero, superhero, superhero
