ONE FRIEND

One

People come and people go
They take and they give
Build you up, just to let you down
That's just the way it isBut all I need is
One friend, to get me through the day
One friend, that never goes away
Only one friend to understand
And never let me downWell I've been in love and I've been in pain
I'm a sinner and a saint
And no matter, where I am or what I do
It's you I appreciateMy one friend, to get me through the day
One friend, that never goes away
Only one friend to understand
And never let me down
And never let me downCan't nobody love you
More than you love yourself
And as long as I've got my one good friend
I don't need nobody elseJust my one friend, to get me through the day
One friend, that never goes away
Only one friend to understand
And never let me downAll I need is one friend, to get me through the day
One friend, never goes away
Only one friend to understand
And never let me down
And never let me down
