Harry Dean Stanton

Pop Will Eat Itself

In 1991 I got glassed
Cousin got murdered, friend got attacked
And the house next door to ours
Got ransacked againBut seeing is believing, hearing is receiving
A deaf and blind world that I don't believe in
Blinded by light, flattened by sound
Over and out - undergroundBut seeing is believing, hearing is receiving
A deaf and blind world that I don't believe in
Blinded by light, flattened by sound
Over and out - undergroundDown here, talk to us, we'll hear
The future is here
Walk with us from hereIn 1993, I will be three O years inside this body
I don't know what's going on outside meBut seeing is believing, hearing is receiving
A deaf and blind world that I don't believe in
Blinded by light, flattened by sound
Over and out - undergroundDown here, talk to us, we'll hear
The future is here
Walk with us from here
