

Don't Get Any Better

[Geri Halliwell](#)

Take a road where imperfection's
Never where you feel the pinch around the middle
Makes you lose the beat
And then you're stepping out of time Underneath my clothes there lies a riddle
Fix my tits, my ass or live a little
Got me thinking twice
A girl's allowed to change her mind What I got is what I need
And I know it's good enough for me
What I got, take it from me
Don't get any better This is it, this is me
I'm exactly where I wanna be
This is life, take it from me
It don't get any better Under pressure, older, free and single
If you want to fit, you better mingle
Don't go losing sleep
You know it's gonna be alright What I got is what I need
And I know it's good enough for me
What I got, take it from me
Don't get any better This is it, this is me
I'm exactly where I wanna be
This is life, take it from me
It don't get any better It don't get any better
I'm flying for free
It don't get any better
Ah baby, take it from me What I got is what I need
And I know it's good enough for me
And what I got, take it from me
Don't get any better This is it, this is me
I'm exactly where I wanna be
This is life, take it from me
It don't get any better What I got, what I need
And I know it's good enough for me
What I got, take it from me
Don't get any better This is it, this is me
I'm exactly where I wanna be
