# Undergoing Treatment

## Duran Duran

We are undergoing treatment
Watching others in the news
Studying our worst reviewsThey say we'll get over it
Disappear like dinosaurs
To the sound of sole applauseDesigned to make us specialIf you see me walking in the garden
Don't ever ask me for an autograph
If you ever catch me in the arcade
Don't even stop me for a photographWe are undergoing treatment
Till our ethic fits the scene
Laid out in Q MagazineThey crave our conformity
Mediocre to the bone
Terrified testosteroneBut why do we still face the musicIf you see me walking in the garden
Don't ever ask me for an autographNow and then you get the strangest notion
That there's something missing
But it keeps you guessingWild ambition can you really blame us?
Can you entertain us?
Can you give a little more?If you see me walking in the garden
Don't ever ask me for an autograph
If you ever catch me in the arcade
Don't even stop me for a photographWe are undergoing treatment
But will the doctors ever cure
These delusions of grandeur?
