New Beginnings

Accelra

Now at last my dream is real
I found peace, true love can heal
On the journey throughout time
A new beginning has arrived
At the crossroads of my life
This new love keeps me alive
I never knew that this could happen to me
So many lonely days and nights
I never knew that you were waiting for me
Hope was out of sight
And suddenly I see the future clearly
No longer living in the past as I let go
Living the dream of my life
I was alone, no one in sight
This love, make me believe that you're the one
Never give up, our day has come
I never felt that this could happen to me
So many lonely days and nights
I never knew that you were waiting for me
Hope was out of sight
And suddenly I see the future clearly
Finally I know at last, I can't let go
Living the dream of my life
I was alone, no one in sight
This love I'll never throw it all away
Now that you're in my life to stay
