Advisory - the following lyrics contain explicit language:

Be my ritual
Be my one desire
Be my light be my pure delight
Be my purifierYou'll never know what you do to me
Five times a day
My self destruction you'll oversee
Don't go don't go awayJust a touch of you
Just a taste
Like kissing God is what we do
Let's go to wasteYou'll never know what you do to me
So sublime
You're like the Devil in Heaven
Every every timeYou've been hanging with the nicest people
Hammerhead
Some silken slip of evil
HammerheadTake food from my mouth
Take my sex
Take my friends take my lovers
Here take thisYou'll never know what you do to me
Maybe I'm wrong
Let's take this journey together
Please come please come along
Please come please come alongYou've been hanging with the nicest people
Hammerhead
Some silken slip of evil
HammerheadOoh, ooh
