That's What Counts

We Are Scientists

We shouldn't think about last night
Nobody's proud of what they've done
Oh, let's not argue about what's right
Let's just agree that it was fun, fun
Enough is not enough
But I keep saying that I'll stop
Over and over
I'm drowning in each drop
There's not much left for me to do
But try to make another call
If I'm not waking up with you
Why bother waking up at all?
Enough is not enough
But I keep saying that I'll stop
Over and over
I know this isn't news

But I think I'm getting used
To sayin' that I'll go
Over and over
Enough is not enough
But I keep sayin' that I'll stop
Over and over
I know this isn't news
But I think I'm getting used
To sayin' that I'll go
Over and over
I'm drowning in each drop
But enough is not enough
And I keep saying that I'll stop
Over and over
I know this isn't news
