Electric Love

Rise & Shine

I leave my house onto these streets
And I'm searchin' for anythin' to fill my needs
And down in the alleyways with these devil and dogs
Talk with the enemies, they worship like gods
Keep comin' on, keep comin' on
Keep comin' on, keep movin' on
Keep comin' on, keep comin' on
Keep comin' on
[Incomprehensible] when no one sleeps
Your cigarette kisses that taste so sweet
You look so pretty, you glitter in gold
Runnin' through your blood is electric love
Is electric love, is electric love

Keep comin' on, keep comin' on
Keep comin' on, keep comin' on
Keep comin' on, keep comin' on
Keep comin' on, keep comin' on
(With electric love)
Keep come in on
(With electric love)
Keep comin' on, keep comin' on
With electric love
With electric love
With electric love, with electric love
With electric love, with electric love
