From the Start

Marlon Asher

Tell me what you need, you know it's on your mind
You say he's usually screwin' up your life
He's always gone when you need to talk
It's just so wrong, I wish you wanted
Love, is it enough?
I'll be your shelter when the weather is rough
And now, you should let go
I'd let you love me like I was in your heart
Just trust like I was there from the start
I'll tell you what you need, a man more like me
It's not a fantasy, you can't have everything
You can be loved and it's time you know, girl
You've had enough, I wish you wanted
Love, is it enough?
I'll be your shelter when the weather is rough
And now, you should let go
I'd let you love me like I was in your heart
Just trust like I was there from the start
So much left just look
It's time you leave, yeah yeah
Oh, is it enough?
I'll be your shelter when the weather is rough
Love, is it enough?
I'll be your shelter when the weather is rough, yeah
And now, you should let go
I'd let you love me like I was in your heart
Just trust like I was there from the start
