Aids

Sajgon

You're accused of the following charges
You're a woman trapped inside a man
Your sexuality no one denies you
But your preference we can't understand
You are the loneliness of all people

It's time for you to realize
AIDS like the plague is from God
For he sees something wrong in his eyes

That's what you get for having
A penis up your ass
You should have used a condom
That's what you get when you
Swallow another man's load
A lubricated condom

How do you find love in another man's hairy ass
You should have used a condom
Millions of lost hamsters
Running ramped in your bowels
Take the Hershey Highway

Fudge packing men
Fudge packing men
Fudge packing men
Fudge packing men
A manly man
Fudge packing men
Fudge packing men
Fudge packing men
