

# Out of Nowhere

## Athlete

7 out of 21 knocked down  
Now only 14 left to go  
I didn't know that I was next in line  
But it is not as if I've had much time  
Jet lag all around me voices calling  
Saying please don't go away  
Last thing I remember drifting down this tunnel  
Was bright light aheadOut of nowhere  
It came and him me on the head  
Out of nowhere  
I saw it over there  
Before it hit you on the head  
I saw it over thereOut of nowhere  
It came and him me on the head  
Out of nowhere  
I saw it over there  
Before it hit you on the head  
I saw it over there7 out of 21 knocked down  
Now only 14 left to go  
I didn't know that I was next in line  
But it is not as if I've had much time  
Jet lag all around me voices calling  
Saying please don't go away  
Last thing I remember drifting down this tunnel  
Was bright light aheadThen when I came around  
Somebody helped me to my feet  
And said I can't believe you're still alive  
I've seen 20 other people in the last half an hour  
Who've been hit right between the eyes  
Seems that somebody some where's on a mission to protect you  
Knowing that you should have survived  
Hurray, hurray, hurray  
We're still aliveOut of nowhere  
It came and him me on the head  
Out of nowhere  
I saw it over there  
Before it hit you on the head  
I saw it over thereIt came and him me on the head  
Out of nowhere

I saw it over there  
Before it hit you on the head  
I saw it over thereIt came and him me on the head  
Out of nowhere  
I saw it over there  
Before it hit you on the head  
I saw it over there  
Out of nowhere
