[Intro: SaintCero]
Ayyy waohh woahh.. yeaa..

[Course: SaintCero]
It's Not So Easy
It's Not So Easy
Knowing you a'int by my side just to please me //
It's Not So Easy
It's Not So Easy
Knowing you aint by my side just to please me //
It's not so easy cause you gone away //
And now I'm standing alone with no kind of say //
Yeahh...
It's not so easy now //
It's not so easy now //
I want to make it up to you cause I let you down //

[Verse #1: Joe Kane]
Off top it ain't easy girl losing your love really changed my world //
Had to regroup rethink my life get a new hand play my cards right //
These cuts were deep and they played my mind //
Focused on drama the pointless fights //
Kept me tossing and turning can't sleep at night //
Cold heart that matched your soul //
That's all black I walked the road alone //
Knife on my back really stuck //
Reminds me to hate no more trust //
Fuck Love my heart's been broke //
I'm suffocating that pain choke //
Drowning these demons they back for more //
That clear liquor that weed smoke help numb the pain but it's still there //
Hate what you did but I still care I know it ain't fare that's life tho //
No rewind so I pick up the pieces you left behind as life goes on! //

[Verse #2: Nili Reyy]
Let me be a little honest I'm done with putting a front on //
I'm torn in every which way is why I'm singing the same song //
So game on is what you wanted //
I did it.. Did I play well? //

I played the rules accordingly and now I'm under the same spell //
The same hell that raised was the very thing inside of me //
That cause my hand to raise to push your awful love aside from me //
I'm giving you my 100 girl I aint trying to rebel //
The last that this occurred things really didn't end well //
And we fail to see that we came so far //
We hit the heights in our love but we still drifting apart //
But yet its..

[Outro: SaintCero]
It's Not So Easy.. It's not so easy ehhh
Yea, it's not so easy, it's not so easy yeaeyyyy
knowing you ain't by my side just to please me...
