Bloodsucker

Bloodsucker

Gotta black breast Chinese eyes
Got an English brain that gonna make me wise
Got a long story that I wanna tell
To a rhythm that I know so wellReally got a lot of lovin' that I wanna give
Baby I'm a mystery but you know I gotta live
I tried another but she didn't want to know, no, no, no, noTake a hold now if you can
Take a lesson from a hard lovin' man
I'm a long way from where I wanna go
Guess, I'll stay awhile, I really love you soHow's about another sip of all the wine you got
Take a tip from me and give it here I'll drink the lot
I'm not a winey, I'm a puttin' on a show, no, no, no, noYou really grab me but I've gotta move
Before they know I'm here and spread the news
Maybe in a while when I've moved around
I can find a way to pay you back your twenty poundsReally got a lot of lovin' that I wanna give
Baby I'm a mystery but you know I gotta live
I tried another but she didn't want to know, no, no, no, noGotta black breast Chinese eyes
I got an English brain that gonna make me wise
I got a long story that I wanna tell
And to a rhythm that I know so wellI really got a lot of lovin' that I wanna give
Baby I'm a mystery but you know I gotta live
I tried another but she didn't want to know, no, no, no, noI really got a [Incomprehensible] one time
