You Knew

Wild Orchid

Everytime I call you baby
You never really have the time
I think about you day and night
Your always on my mind
When you get a minute baby
think of lil ol me
Yeah baby you can call me up
and ill be anywhere you need
So whats your move boy
Will you give it a try
Now its all on you boy
Sugar dont be shy
Cause its just between you and I
U knew what you were getting into
When you stepped inside the room
and you turned and locked the door
U do thoughs freaky things I like to do
Baby tell me what you want cause id do anything for you
baby ohhhhh
yeah yeah
yeah yeah
I cant get no sleep
Wishing you were here with me
I got to have you to fufill my needs
Cause its your energy
Baby thats just my speed
And I got to have it baby give it to me
So whats your move boy
will you give it a try
cause now its all on you boy
sugar dont be shy
cause its just between you and i
U knew what you were getting into
When you stepped inside the room
and you turned and locked the door
U do thoughs freaky things I like to do
Baby tell me what you want cause id do anything for you
anything for you

anything for you

anything for you
Its your energy
baby its just my speed
crusing up a space or two
baby come and ride with me
oh oh
Its your energy
baby its just my speed
crusing up a space or two
baby come and ride with me
oh oh oh
U knew what you were getting into
When you stepped inside the room
and you turned and locked the door
U do thoughs freaky things I like to do
Baby tell me what you want cause id do anything for you
U knew what you were getting into
When you stepped inside the room
and you turned and locked the door
U do thoughs freaky things I like to do
Baby tell me what you want cause id do anything for you
anything for you
anything for you
anything for you
