Might As Well Get Stoned

Chris Stapleton

Well, she said, she didn't love me
And kicked me out the door
Now I'm livin' in one room
And sleepin' on the floor
Think I'm gonna kick my boots off
And put some music on
And since I'm all alone
I might as well get stoned

I might as well get stoned

Get it off my mind

Ain't got a thing to do

All I've got is time

The bottle's all I've had to be a friend of mine

And since my whiskey's gone

I might as well get stoned

Now every time I watch the TV

Another soldier dies

Another brother's gone

Another mother cries

Now I know they've got a job to do

But if I had one wish

I wish they'd all come home

So, we could all get stoned
