Viper

Revolvr

[lyrics by Harry Conklin]A flash of his blade turns your screams into silence
He laughs in your face as your life fades awayKing of the night time
Black as the night and colder than steel
The VIPER
Injecting his venom deep inside of your soul
The VIPERLord of the night
I ride on air
I will take you down, downWicked within turning dreams into nightmares
Nowhere to go when this cat is on the prowlHe laughs in your face as your dreams turn to silence
He laughs in your face as your life fades away, away, away, away, away, away, away
