17 Magazine

Relient K

Talked to my sister late last night
And she gave me some advice
And what she said was right
Talked to my sister late last night
I said, I've got her on my mind
She said, That's good, I know my kindAnd maybe this time
Maybe she's just the one you need
Keep taking your time
You shouldn't go for her full speed
And maybe this time
Maybe she's just the one you need'Cause I know that I've never seen
Your motive's more squeaky clean
My 17 Magazine tells me
That you're in loveJessica told me that I should take a quiz
10 yes or no questions, to tell me what love really is
I searched for my answers
I lied and said, I like NYSync
They said my middle name's Don Juan
And I'm sure of myself I thinkI say if you're asking me
Love is sacred love is sweet
My 17 Magazine tells me
That you're in loveMy 17 magazine
My 17 magazine
My 17 magazine tells me
that you're in love
