Here We Go Again

Operation Ivy

It's not the ending, it's the beginning
The ground is moist, it rained last night
Smells like smoke, it smells so clean
The sun is shining down like a friendly white light
Here we go again
Analyzed the world I was born into but I could never understand
Knew I never wanted to grow up if that meant being a man
Dominating strict competition is the meaning of our lives
Stomping on the weak keeps us the winner of the battle in our minds
Tensions in our lives that are destroying our minds
Unite themselves together to make our consciousness blind
Conditioned to self-interest with emotions locked away
If that's what they call normal then I'd rather be insane
Relax yourself from giving what you want to do with your life
Ease up from giving up things like the control of your own mind
Never ask any question, then you're never gonna get no answers
Always be wondering what do you want, you keep getting older faster
Tensions in our lives that are destroying our minds
Unite themselves together to make our consciousness blind
Conditioned to self-interest with emotions locked away
If that's what they call normal then I'd rather be insane
Insane!
Insane!
Hup-hup, hup (x4)
Pick it up (x16)
(Hup-hup, hup) (x3)
Pick-
(Hup-hup, ho)
Tensions in our lives that are destroying our minds
Unite themselves together to make our consciousness blind
Conditioned to self-interest with emotions locked away
If that's what they call normal then I'd rather be insane
Relax yourself from giving what you want to do with your life
Ease up from giving up things like control of your own mind
Never ask no question then you're never gonna get no answer
Always be wondering what do you want, keep getting older faster
Conditioned to self-interest with emotions locked away (here we go again)
If that's what they call norma, rather be insane (here we go again)
(Here we go again)

Another test of manhood
(Here we go again)
Just when you thought you won
(Here we go again)
More we keep competing
(Here we go again)
More the battle has just begun
